

# Ocean & Air Freight Post-Audit Services

*Maximizing Refunds, Minimizing Effort*

## Unlock Refund Opportunities with Minimal Time Investment

### The Opportunity

Importers and exporters have up to three years from the invoice date to reclaim overpayments from ocean and air freight vendors. Our specialized post-audit services identify and recover funds that might otherwise go unnoticed, all without disrupting your existing processes or vendor relationships.

### Key Benefits

#### **Works Alongside Existing Auditors**

We complement, rather than replace, internal audit teams or third-party auditors. Our goal is to enhance value by uncovering additional refund opportunities.

#### **Minimal Time Investment**

Our streamlined recovery process takes less than one hour to implement, and after that, it's mostly hands-off for you.

#### **Direct Vendor Communication**

We handle all interactions with ocean and air freight vendors, ensuring a hassle-free recovery process with minimal involvement from your team.

#### **Significant Refund Potential**

Many importers/exporters see six-figure refunds within 30 days thanks to our unique process, deep industry insights, and specialized expertise.

#### **Collaborative & Solution-Driven Approach**

We work with your internal teams and external auditors, not against them. Our goal is to strengthen relationships, not disrupt them, while maximizing refunds.

### Start Recovering Overpayments Today!

Maximize your refund potential while keeping your operations running smoothly. Our service is risk-free and performance-based. If we don't recover funds, you don't pay.
